

Advanced Energy Works for California

In five years with Siemens, Jon Ward has held positions in energy efficiency and smart buildings and is now part of a national team of Siemens energy industry executives that work with utilities, independent power producers, renewable developers, transportation electrification companies to drive enterprise level business outcomes. Prior to Siemens, Jon served as a Nuclear Submarine Officer aboard the USS Jefferson City SSN-759.

Jon holds a Bachelor of Science from the United States Naval Academy and is certification as a Professional Nuclear Engineering Officer in the United States Navy.

Siemens is a global technology powerhouse focusing on the areas of electrification, automation and digitalization. In addition, Siemens has the strategic operating companies of Siemens Gamesa Renewable Energy and Fluence which are the largest wind and storage manufacturers globally.

Globally Siemens employs 350,000 people. In California, Siemens employs 5000 people in the energy, transportation and medical industries and has manufacturing facilities in Pomona.

JON WARD

Siemens

Director of Power System Development
Los Angeles

"The energy sector is changing; being in the West we are on the cutting edge of the transformation. It is rewarding to assist companies as they adapt to that market shift."

- JON WARD, SIEMENS

Advanced Energy Works

A movement of advanced energy workers and supporters to make advanced energy grow, create millions of jobs, and strengthen our economy in communities across America.
