

Advanced Energy Works for Colorado

Angie Thoma is a Program Manager for Landis+Gyr in Colorado. She is responsible for customer support, program management and delivery for a 10-year, \$180 million automated metering infrastructure (AMI) project, which includes Landis+Gyr Command Center, Ampy Management System (AMS) energy prepayment solutions, and associated radio frequency (RF) network. She has also spearheaded and supported additional projects, including Advanced Grid Analytics, Advanced Security, and Advanced Load Management.

Before Landis+Gyr, Angie held various positions with Colorado Springs Utilities. She received her Bachelor of Science in Business Management from the University of Phoenix and a Master of Science from Regis University in Organizations Leadership and Management. She also received her Project Management Professional certification in 2010 from the Project Management Institute.

Landis+Gyr has been a global leader of energy management solutions since 1896. With a world-wide team of 1,300+ engineers and research professionals, Landis+Gyr is committed to improving energy efficiency, streamlining operations, and improving customer service for utility providers.

Advanced Energy Works

A movement of advanced energy workers and supporters to make advanced energy grow, create millions of jobs, and strengthen our economy in communities across America.
