

Advanced Energy Works for Colorado

Ben Turner is a renewable development manager based in Invenergy's Denver office. His renewable generation and storage portfolio includes projects throughout the southwestern United States, including Arizona, Colorado, New Mexico and Utah. Ben holds an MBA from the University of Colorado, a BBA from Texas A&M University and a Graduate Energy Certificate from the Renewable & Sustainable Energy Institute at the University of Colorado.

Headquartered in Chicago, Invenergy develops, owns and operates large-scale renewable and other clean energy generation and storage facilities across the globe. Invenergy has successfully developed 127 projects totaling more than 20,000 megawatts.

In partnership with local communities, Invenergy solves the energy challenges of today. In 2017 alone, Invenergy invested \$135 million in local communities, supported 2,066 new jobs, and developed enough new energy to power 101,580 homes.

BEN TURNER

Invenergy

Manager, Renewable Development
Denver

"I enjoy working for Invenergy and in the renewable energy industry because I believe renewables provide a benefit that will positively impact the world for years to come."

- BEN TURNER, INVENERGY

Advanced Energy Works

A movement of advanced energy workers and supporters to make advanced energy grow, create millions of jobs, and strengthen our economy in communities across America.
