

Advanced Energy Works for Florida

George Berry has been with Vivint Solar for three years and oversees the sales activities of dozens of solar energy sales managers across the state. Prior to joining Vivint Solar, George worked at Nordstrom for 12 years, where he learned first-hand to focus first and foremost on the customer.

As a director of sales, George is responsible for teaching sales managers how to connect with current and future customers as they explore whether solar is right for them and their home. When George isn't training other sales managers, he enjoys talking with homeowners about their energy needs.

Vivint Solar is a leading full-service residential solar provider in the United States, with over 3,500 employees serving more than 139,000 customers in 22 states. With Vivint Solar, customers can power their homes with clean, renewable energy and typically achieve significant financial savings over time. Offering integrated residential solar solutions for the entire customer lifecycle, Vivint Solar designs and installs the solar energy systems for its customers, and offers monitoring and maintenance services. Vivint Solar also offers solar plus storage systems with LG home batteries.

GEORGE BERRY

Vivint Solar
Director of Sales
Orlando

"The main reason why I like working in solar is that I am able to help homeowners take control of their power in ways that simply have not been possible in the past."

- GEORGE BERRY, VIVINT SOLAR

Advanced Energy Works

A movement of advanced energy workers and supporters to make advanced energy grow, create millions of jobs, and strengthen our economy in communities across America.
