

# Advanced Energy Works for Florida

Quintin Williams is the Logistics and Distribution Manager at Landis+Gyr. He works at the Jacksonville office in Florida and is responsible for managing operations at the L+G Distribution Center to support internal and external customers. These responsibilities include: managing daily warehouse operations, overseeing international shipments, assisting 13 managed service sites throughout North America in forecast planning for high value/volume products, coordinating inventory needs, overseeing stocking levels, and storage/inventory space management, hiring and training personnel. He holds a Bachelor of Science in Logistics from Southern Illinois University, Carbondale. He is a member of the American Production and Inventory Control Society (APICS).

Landis+Gyr has been a global leader of energy management solutions since 1896. With a world-wide team of 1,300+ engineers and research professionals, as well as an ISO certification for quality and environmental processes, Landis+Gyr is committed to improving energy efficiency, streamlining operations, and improving customer service for utility providers.

Landis+Gyr currently has projects in multiple states across the U.S. Its Florida operation with the Jacksonville Electric Authority (JEA) is the largest water meter end-point metering operation in the U.S.

## Advanced Energy Works

A movement of advanced energy workers and supporters to make advanced energy grow, create millions of jobs, and strengthen our economy in communities across America.
