

Advanced Energy Works for Illinois

Dan Jones has worked at Direct Energy for over nine years and is responsible for managing numerous indirect channel partners (brokers) in Illinois, Ohio, and Michigan. In 2013 and 2018, Dan was awarded the company's top honor, the President's Club award.

Prior to Direct Energy, Dan worked for W.W. Grainger, Inc., for three years out of the Alsip branch in Cook County. One of his largest accomplishments was converting all of the UPS locations around Chicago (all in Illinois, most in Cook County) to energy-saving T8 motion sensor light fixtures. This helped save UPS nearly \$1 million.

Direct Energy is one of North America's largest retail providers of electricity, natural gas, and home and business energy-related services, with nearly four million customers. Direct Energy empowers customers with simple solutions to track, understand, and control the electricity and natural gas they use so they can make smarter decisions, be more efficient, reduce their energy use, and save money.
