

Advanced Energy Works for Michigan

Brandy Brown is a Senior Consultant at CLEAResult, where she has managed evaluation and research initiatives for four years. With an array of experience in program evaluation, systematic research, and both qualitative and quantitative research methodology, Brandy serves as a national subject matter expert advising operation teams on strategic client relationship support, research design, and statistical analysis. Dr. Brown holds a PhD in Interdisciplinary Evaluation from Western Michigan University, where her research focused on the methodological validity of energy efficiency evaluation. She also holds a Master of Public Administration degree and a B.A. in Communication, Law, Economics, and Government from American University. She is a Board Member for Advancing Women in Energy, a Michigan Clean Energy Leader, and President of Comstock Public Schools Board of Education.

CLEAResult Michigan boasts nearly 300 employees who offer a comprehensive set of energy programs and demand-side management strategies to advance energy goals within the state. Our energy experts design and maintain energy optimization services for utility companies that lower load requirements, reduce energy bills for end users, and minimize environmental burdens on communities. Every day, in every way possible, we change the way people use energy.

Advanced Energy Works

A movement of advanced energy workers and supporters to make advanced energy grow, create millions of jobs, and strengthen our economy in communities across America.
