

Advanced Energy Works for Ohio

John Nomina is responsible for safety, quality, and production at two Schneider Electric manufacturing locations in Southwest Ohio with over 450 employees and eight different product lines. These locations deliver solutions to the largest and most engaging customers in today's digital market. John has been with Schneider Electric for over five years and has over 22 years of manufacturing experience. He began his career in the paper industry, holding various positions in engineering and management. John received his Bachelor's degree from Miami University in Engineering and an MBA from Xavier University.

Schneider Electric is leading the Digital Transformation of Energy Management and Automation in Homes, Buildings, Data Centers, Infrastructure and Industries.

With global presence in over 100 countries, Schneider is the undisputable leader in Power Management – Medium Voltage, Low Voltage and Secure Power, and in Automation Systems. The company provides integrated efficiency solutions, combining energy, automation, and software.
